### For the attention of:

Mr Scott Morrison  
Prime Minister of Australia  
Leader of the Liberal Party of Australia

Dear Mr Morrison, in your response to me last year, you said **"Vaccination is not compulsory in Australia and it will not be compulsory to have a COVID-19 vaccine"**. (Please see attached letter dated 16 October 2020.)

You also said "However, a COVID-19 vaccine is the best way to protect the Australian community from this virus. As such, we want to achieve the highest rate of vaccination possible. The Government will explore all avenues to achieve this goal, **guided by the advice of medical and scientific experts**". (My emphasis.)

**Mr Morrison, I request you provide me with details of the medical and scientific experts advising and influencing the Morrison Government on the COVID-19 situation and COVID-19 vaccine products, treatments, and preventatives.**

**Please provide me with the names, qualifications/expertise, and any potential conflicts of interest of these people who are advising and influencing the Morrison Government on taxpayer-funded health policy.**

In the interests of transparency and accountability, it is essential that this information be publicly accessible for the perusal of the Australian people.

I request your urgent response on this matter.

Sincerely  
Elizabeth Hart  
Independent person investigating the over-use of vaccine products and conflicts of interest in vaccination policy
