

Bill Gates: "...we don't know for sure yet if RNA is a viable platform for vaccines..."

Really? So this is a medical experiment on the global population?

In early 2020, Bill Gates was leading *"the race to create a COVID-19 vaccine"*.

Yes, seriously, a software billionaire was dominating international vaccination policy, as Gates has done for years via the Bill & Melinda Gates Foundation, see for example the [Global Vaccine Action Plan](#).

In his [GatesNotes article](#) in April 2020, Gates insists:

"...we need to make the vaccine available to almost every person on the planet"

In April 2020, Gates laments that 'traditional' vaccines are *"time-consuming to make"*, and was enthusiastic about new approaches *"to get the vaccines out to the whole world much faster"*.

For example RNA vaccines...

Gates says:

Our foundation—both through our own funding and through [CEPI](#)—has been supporting the development of an RNA vaccine platform for nearly a decade.

We were planning to use it to make vaccines for diseases that affect the poor like malaria, but now it's looking like one of the most promising options for COVID.

The first candidate to start human trials was an RNA vaccine created by a company called Moderna.

“There’s a catch, though: we don’t know for sure yet if RNA is a viable platform for vaccines.”

‘Dr’ Gates gives us the lowdown...

Because RNA vaccines let your body do most of the work, they don’t require much material. That makes them much faster to manufacture.

There’s a catch, though: we don’t know for sure yet if RNA is a viable platform for vaccines.

Since COVID would be the first RNA vaccine out of the gate, we have to prove both that the platform itself works and that it creates immunity.

It’s a bit like building your computer system and your first piece of software at the same time.

Blimey...this is all sounding very novel - from the computer geek/’vaccine expert’!!!

So how did that ‘proof-finding exercise’ turn out, on the world’s population? Do the RNA vaccines create immunity? The RNA vaccines ‘that don’t prevent infection nor transmission’? The RNA vaccines purportedly against the collection of common respiratory symptoms called ‘Covid’ - something that was known from the beginning wasn’t a serious threat to most people? And against ‘asymptomatic infection’...aka ‘positive Covid test’...?

More from ‘Dr’ Gates in April 2020...

Here’s how an RNA vaccine works: rather than injecting a pathogen’s antigen into your body, ***you instead give the body the genetic code needed to produce that antigen itself.***

When the antigens appear on the outside of your cells, your immune system attacks them—and learns how to defeat future intruders in the process.

You essentially turn your body into its own vaccine manufacturing unit.

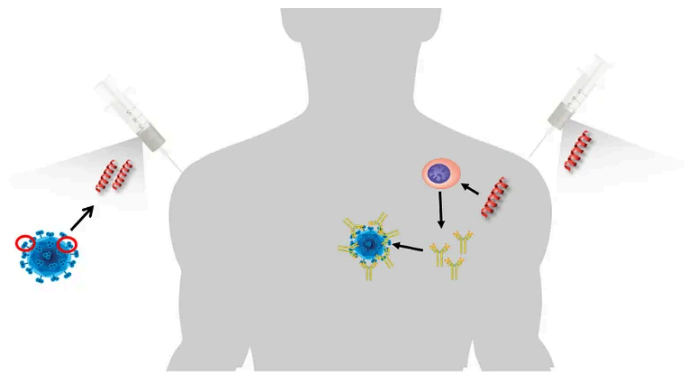

Crikey!!! Does he mean something like this?

“...the use of the body as bioreactor...” ?!?!?!

Nucleic Acid Technologies

DARPA pioneered the use of the body as bioreactor to produce therapeutics

- **Gene-encoded vaccines** for long term protection
- **Gene-encoded antibodies** for near immediate, temporary protection
 - Potent antibody discovery
- **Distributed diagnostics** based on highly sensitive molecular assays

Wow! This is one helluva of an experiment with people’s bodies!?!

I wonder how many people were clearly informed about this before the needle was inserted into their arm, that their body was going to be artificially turned into “*its own vaccine manufacturing unit*”...

But wait a minute, isn’t this...

"A low risk infection... even in the absence of a vaccine"

Why on earth would anyone subject themselves or their child to this ginormous medical experiment, against “a low risk infection”?

Mass populations were coerced and *even mandated* to submit to these injections... *precluding valid voluntary informed consent for vaccination.*

How could this happen?!?! How could a megalomaniac software billionaire take over international vaccination policy, and inflict this vaccine experiment on billions of people?

How could the medical profession go along with inflicting this experiment on the population... under coercion and mandates?

Why weren't doctors, nurses and pharmacists warned not to collaborate with coercive and mandatory COVID-19 vaccination?

This is such a disaster...

Much of the global population has been coerced and mandated to participate in a global vaccine experiment at the behest of software billionaire Bill Gates.

As former Australian Health Minister Greg Hunt admitted to [David Speers on the ABC](#) in February 2021:

“The world is engaged in the largest clinical trial, the largest global vaccination trial ever...”

Why on earth are we listening to a software billionaire on vaccines, and environmental science issues.

I'm dumbfounded !!!

Can he just go away? Everyone is sick to death of hearing him speak on things of which he has no expertise.

This happened because Bill was filmed on Epstein Island by the CIA hence he is just doing as he is told by the CIA/DoD/DARPA bioweapons industrial complex. They specialise in terrorising the world so they can make huge profits selling the "cures" and also steal billions from the taxpayers in government grants. Highly profitable and they can also test out the latest weapons on the population under the cover of "public health". You could not make this shit up!
