

# Comments CENSORED on article about the COVID-19 Response Inquiry report

There's much consternation about the [Albanese Government's Mis/Disinformation Bill](#), that this is a means to shut down dissent on social media, and protect the government, 'the establishment', and the mainstream media from accountability.

*So where are the people to be able to speak freely, and discuss matters relevant to taxpayer-funded policy? Where is our public forum for serious discussions on policy?*

For years the people have been shut out of the conversation, given little or no representation in the mainstream media, including the ABC and SBS, certainly not on matters relevant to taxpayer-funded vaccination policy.

Consider for example [an article on the Murdoch media's The Australian](#) (behind the paywall) about the recently published COVID-19 Response Inquiry report:

## Scandalous Covid betrayal of trust, pandemic inquiry report finds

By ROSIE LEWIS

8:59pm October 29, 2024. Updated 5:54am October 30, 2024

Lockdown crew ... premiers Daniel Andrews, Annastacia Palaszczuk and Mark McGowan. Pictures: David Geraghty, Dan Peled/NewsWire. Colin Murty

According to information in this article, *it seems the COVID-19 Response Inquiry report is going to facilitate a whole lot more spending of taxpayers' money on the burgeoning pandemic industry...*

It looks like the plan is to subject the general public to ongoing 'public health terrorism', to continue to exploit and control people for the benefit of the lucrative pandemic industry, which bled us dry during 'Covid'.

I sought to leave comments on *The Australian's* article via my family subscription.

Certainly my comments are forthright, but they say things that must be said to help expose the manufactured Covid debacle which has been covered up for so long.

**My comments were censored by moderators at *The Australian*.**

***Why?***

**Why are subscribers to *The Australian* forbidden to make candid comments relevant to the COVID-19 Response Inquiry report and taxpayer-funded policy?**

**What does this mean for the public discourse when alternative viewpoints are suppressed?**

***How much censorship occurred throughout the Covid debacle, and how did this impact on accountability for the grossly disproportionate and ill-targeted COVID-19 response?***

**Please see below screenshots of my censored comments. Consider for yourself on what basis were my comments censored? Too close to the bone...?**

Meanwhile, the elephant in the room remains...There is no valid consent for the vaccines. It's impossible to obtain valid consent under coercion and mandates.

## Scandalous Covid betrayal of trust, pandemic inquiry finds

NOT APPROVED 19 hours ago

72.3 million COVID-19 vaccine doses have been administered across Australia, according to Australian Government statistics.

These injections have been administered in a climate of fear and intimidation, and coercion and vaccine mandates.

It's not possible to obtain authentic voluntary informed consent under coercion and mandates, under threats of people losing their job and participation in society if they refuse to comply.

This means there is NO VALID CONSENT for vaccination.

What is this going to mean when the penny drops?

Not just here, but all around the world.

Who coordinated the destruction of voluntary informed consent? Who is pulling the strings behind the curtain?

Where's the evidence there was a 'pandemic'?  
There was no pandemic...  
This was a deliberately created crisis based on  
'case' numbers via PCR tests, including of  
'asymptomatic' people.  
The entire thing was made up!  
They destroyed the medical system with  
deliberate intention, making everything about  
'Covid' to the detriment of everything else.  
The social distancing, the PPE, the masking/  
muzzling, all put in place to isolate and  
humiliate people, and maintain the fear.  
And the mainstream media was the  
propaganda machine used to mis/disinform  
and betray the people.

Covid was and is a deliberately manufactured  
crisis, used to exploit and control the people.  
The biggest crime of all time.

Elizabeth do you mind if I post your comments to my social pages even though they will definitely be fact checked? It's unbelievable to me that those of us with differing opinions are not allowed to be heard, it will only get worse and as you say the government are protecting themselves and their own interests they want us all dumb, fat and ignorant!

Does it matter if the newspapers and media are run by companies or in the case of the USSR the government?

Yes... At least in the USSR people knew their news was propaganda.

The west is slow to learn this lesson. Comments have always been censored, it's just more obvious now that they're lying more, they need to censor more.

Orwell wrote 1984 about his experiences, we just live in a more subtle version of it. But it's falling apart because simple points like informed consent are finally getting attention by people.
