

# Vaccinators DO NOT have specific medical indemnity for administering COVID-19 vaccines in Australia

Have vaccinators obtained valid voluntary informed consent for COVID-19 vaccination?

*More than two years ago*, it was discovered that vaccinators - doctors, nurses, pharmacists - **DO NOT** have specific medical indemnity for administering COVID-19 vaccines in Australia, after my colleague Emma McArthur sent [this enquiry to then Health Minister Greg Hunt](#), in *November 2021*:

**For the attention of:  
The Hon Greg Hunt MP  
Minister for Health and Aged Care**

Dear Minister Hunt

Please could you advise to what extent the Commonwealth Covid-19 vaccine claims scheme provides insurance and indemnity for the civil and criminal liability that would arise where battery and clinical negligence occur due to a failure to obtain valid informed consent?

Please could you also provide the terms and conditions for this scheme.

Yours sincerely

Emma McArthur

In *December 2021*, Emma received [a response from Louise Morgan](#) of the Australian Government's COVID-19 Vaccine Claims Scheme Taskforce, advising that:

The Scheme does not provide an indemnity for practitioners or insurers, it does however provide patients who have suffered one of the eligible clinical conditions or an administration injury as a direct result of a COVID-19 vaccine, with faster access to compensation rather than a costly and complex court process.

I can advise that informed consent should be obtained for every COVID-19 vaccination, as per usual consent procedures for other vaccinations.

Note again that in [her December 2021 response](#) to Emma McArthur, Louise Morgan says “*The Scheme does not provide an indemnity for practitioners or insurers*” and:

**I can advise that informed consent should be obtained for every COVID-19 vaccination, as per usual consent procedures for other vaccinations.**

But in *December 2021*, ‘*informed consent*’ for COVID-19 vaccination had already been destroyed by COVID-19 vaccination *mandates* that had been imposed across Australia, with millions of people being coerced and intimidated into submitting to COVID-19 vaccination, under threat of losing their livelihood and participation in civil society - ‘No Jab, No Job’...to...‘No Jab, No Life’.

The floodgates had been opened for vaccination mandates in *June 2021*, after Chief Medical Officer Paul Kelly and the AHPPC capitulated to former Prime Minister Scott Morrison’s and National Cabinet’s demand for compulsory vaccination for aged care workers, which broke the principle of voluntary informed consent for vaccination, see my previous article:

## The destruction of voluntary informed consent via mandatory COVID-19 vaccination

ELIZABETH HART • 6 FEBRUARY 2024

[Read full story](#) →

As I highlight in [my recent email to Attorney-General Mark Dreyfus](#), sent on 27 February 2024:

Voluntary informed consent for COVID-19 vaccination was *precluded* by misinformation from 'the authorities', and their use of coercion, intimidation and mandates to make people comply with this medical intervention. *This was compounded by doctors, nurses and pharmacists failing to challenge coercion, intimidation and mandates for vaccination.*

See:

## Coercion, intimidation and mandates preclude voluntary informed consent for vaccination

ELIZABETH HART • 28 FEBRUARY 2024

[Read full story](#) →

The vaccinators - doctors, nurses and pharmacists - *collaborated with coercion, intimidation and mandates for vaccination.*

Why didn't the medical profession as a whole challenge the imposition of COVID-19 vaccination mandates, *as they should know such mandates preclude voluntary informed consent for vaccination?*

<b>Misinformation</b>		<b>Valid</b>
<b>Coercion</b>	<i>preclude</i>	<b>Voluntary</b>
<b>Intimidation</b>		<b>Informed</b>
<b>Mandates</b>		<b>Consent</b>

*Vaccinators have injected people they knew were under duress to comply, for example people living in the 'vaccinated economy' imposed by then Victorian Premier Daniel Andrews in September 2021, when then National Cabinet member Daniel Andrews decreed:*

*There is going to be a vaccinated economy and you get to participate in that if you are vaccinated.*

*We're going to move to a situation where, to protect the health system, we are going to lock out people who are not vaccinated and can be.*

The plan was to discriminate against and ostracise critical thinking people who did not want to consent to the highly questionable COVID-19 vaccine products.

Non-compliers were to be punished by exclusion from free participation in general society.

*People were denied unimpeded personal autonomy and bodily integrity. Enormous political and social damage was done via the theft of freedom to choose or refuse medical interventions without penalty.*

It's extraordinary that the medical profession collaborated with this medical tyranny.

*Again, why didn't the leadership of the medical profession - and medical insurers - challenge the imposition of COVID-19 vaccination mandates?*

Why did vaccinators - doctors, nurses, pharmacists - inject people they knew were appearing before them under coercion, intimidation and mandates? *They should have refused to collaborate with coercion, intimidation and mandates.*

What will it mean for vaccinators' medical indemnity, *if they have not fulfilled their legal and ethical obligation to obtain voluntary informed consent for COVID-19 vaccination?*

Which the Australian Government has confirmed should be obtained, as per [Louise Morgan's advice](#) in December 2021...

**...informed consent should be obtained for every COVID-19 vaccination, as per usual consent procedures for other vaccinations.**

So, could hundreds of vaccinators then be sued for not giving people informed consent, even though the state premiers were mandating this and getting the employers to mandate it for their workers under duress of get jabbed or lose your job? Happened to my husband and he lost a well paying job that would have seen us save enough to retire in about 4 to 5 years. However now we have other work but not as well paying and we are going backwards, all because of this draconian nonsense. They have destroyed Australia and many lives to boot. The amount of suffering that is going on because of this damned concoction is immense and is world wide. However, you would never know it if all your information came from the mainstream media. Swept under the carpet at every opportunity and people being gas-lighted at every turn when looking for help from the medical community. Disgusted!

We all know that where mandates existed there was no informed consent, it was coercion & blackmail. Especially in Victoria after 2 years of lockdowns, a destroyed economy, people trying to survive & no exemptions, they had no choice. It was get vaccinated or be segregated. That is not informed consent.
